Journal Perpetual Access Tracking: Free search tool

Melissa Belvadi, University of Prince Edward Island
October, 2022

Agenda

- CRKN Project - quick review
- Web-based tool to search across spreadsheets

Perpetual Access Rights (PAR) =

Post-Cancellation Access (PCA) rights =

Post-termination rights (PTR)

CRKN Project (KBESC / CSC)

Goal:

Record perpetual access rights (PAR) for **serials** for each member

Help library in dispute with publisher

Scope:

Rights acquired through CRKN agreements

Spreadsheet = File (.xlsx), Worksheet = tab

One spreadsheet per vendor (e.g. Wiley)

Main entitlements tab = "PA-rights"

- One row per journal title/year

- Columns with metadata about the journal/year itself (eg ISSN)

- Columns that provide links to CRKN legal agreements that apply to that journal/year

- Columns for each participating member providing simple entitlement codes - Y / N / YBut / NBut

Web Based Tool for Searching Entitlements

- Written by UPEI computer science "capstone" students for course credit
- Runs on any Apache web server that supports javascript and PHP
- Open source - Github: https://github.com/mbelvadi/library-journal-entitlements-project
- Public tool if website is public - no login to search

Admin functions

- Password protected
- Easily ingest all CRKN spreadsheets into local sqlite db (what is sqlite?)
- Ingest locally maintained spreadsheets that follow the same structure rules
- Configure misc. local options

Future Thoughts

Long term issues - maintaining open source code (students long gone)

Ebooks: CRKN KBESC has started work on Ebook equivalent
