Dear Mr. Hames & Mr. Bruning,

Re: License Agreement between Elsevier (“the Publisher”) and the Canadian Research Knowledge Network (“the Consortium”) dated January 1, 2021, as such License Agreement may have been amended or supplemented from time to time (“the License Agreement”)

This letter shall constitute an amendment of the License Agreement for the purpose of:

- amending the term of the License Agreement to January 1, 2024 – December 31, 2026
- amending section 1. **DEFINITIONS**
- amending section 4. **PROHIBITED USES**
- amending **Schedule 1 – LICENSED MATERIALS AND ACCESS METHOD**
- amending **Schedule 2 – FEE**
- amending **Schedule 3 – MEMBERS OF THE CONSORTIUM PARTICIPATING IN THE AGREEMENT**
- amending **Schedule 4 – IP ADDRESSES/RANGES OF THE MEMBERS PARTICIPATING IN THE AGREEMENT**
- amending **Schedule 6 – OPEN ACCESS OPTION**

The terms set out in this letter shall have the same meaning as the terms defined in the License Agreement.

The License Agreement is hereby amended as follows:

1. With respect to section 1. **DEFINITIONS**, the following terms are hereby added:

Article Processing Charge (APC)

The Publisher’s charge for publishing services rendered in connection with publishing an Open Access Article.

Eligible Article

An original work, in formats including research articles, case reports, data in brief, or review articles, by an Eligible Corresponding Author as defined herein, submitted to an Eligible Journal as defined and listed in Annex A to Schedule 1.

Eligible Corresponding Author

All staff employed by or otherwise accredited to the Member as well as all students enrolled or accredited to the Member who are also the corresponding author of an article published in a Hybrid Open Access Publishing Title or Gold Open Access Publishing Title. For the purposes of eligibility, the Eligible Corresponding Author is the single author who manages the publication process for an article from submission to post acceptance and corresponds with the Publisher on the same.

Gold Open Access Publishing Title

Fully open access titles, where open access publishing rights with a discount on Article Processing Charge list price rates are granted under this Agreement, as listed in Schedule 1 – Licensed Materials and Access Method (“Schedule 1”).

Hybrid Open Access Publishing Title

Journals that publish both subscription and open access articles, where hybrid open access publishing rights are granted under this Agreement, as listed in Schedule 1 – Licensed Materials and Access Method (“Schedule 1”).

OA Term

As referenced in section 2.1 of Schedule 6 of this Agreement, the period for which Eligible Corresponding Authors of the Members may publish unlimited Open Access Articles, defined as January 1, 2024 through December 31, 2026.

Open Access Article

An article by a submitting Eligible Corresponding Author that is accessible on the basis of an agreement that it will be freely and openly available online immediately upon publication, under an Open Access License.

Open Access License

A Creative Commons license of the Eligible Corresponding Author’s choice, as selected based on the journal publishing options. Nothing in this license or in the agreement between the Publisher and the Eligible Corresponding Author may supersede any rights of the author as defined in the Creative Commons license of their choosing.

Open Access Material

Material that is open access (e.g., published Open Access Articles) that forms part of the content of the Licensed Materials and all metadata relating to Licensed Materials.

2. With respect to **Section 4 – Prohibited Uses**, the following clause is hereby added as follows:

4.6 ARTIFICIAL INTELLIGENCE

Consortium, Members, and Authorized Users may not use the Subscribed Products in combination with an artificial intelligence tool to:

- (i) create a competing commercial product or service for use by third parties;
- (ii) adversely disrupt the functionality of the Subscribed Products; or
- (iii) reproduce or redistribute the Subscribed Products to third party artificial intelligence tools, except to the extent limited portions of the Subscribed Products are used for research purposes (including to train an algorithm) in a closed or self-hosted environment solely for use by the Consortium, Members and Authorized Users, to ensure such use does not train the algorithm of a third party artificial intelligence tool (other than for the creation of prompts or queries) and does not result in the third party provider of such artificial intelligence tools retaining any residual portions of the Subscribed Products.

Consortium, Members or Authorized Users may only use artificial intelligence tools as permitted in this Agreement in combination with the Subscribed Products if such artificial intelligence tools incorporate reasonable security.

Elsevier and the Subscriber both acknowledge the unique challenges and complexities around the emerging artificial intelligence technologies and LLMs and agree to mutually support each other in developing policies and protocols for both parties' benefit. If there are existing, or if during the term of this Agreement the government adopts mandatory laws regarding artificial intelligence in research, such law shall prevail to the extent of any inconsistency with this Agreement.

With respect to the restrictions under this section 4.6, the parties agree to periodically review in good faith further revisions of this section 4.6 where more favourable terms and conditions may have been offered to any third party by Elsevier in a similar position and under similar circumstances.

Subscriber shall take appropriate reasonable efforts to ensure the Subscribed Products are used in accordance with this Agreement against misuse or unauthorized access. The Subscriber will not be liable for unauthorized use of the Subscribed Products by any Authorized Users provided that the unauthorized use did not result from the Subscriber's own negligence or wilful misconduct and that the Subscriber did not permit such unauthorized use to continue after having actual notice thereof.

The foregoing restrictions do not apply to Subscribed Products made available under a CC license, for which the terms of the respective CC license apply.

3. With respect to **Schedule 1 – Licensed Materials and Access Method**, this Schedule is hereby amended per the Schedule attached herein.
2. With respect to **Schedule 2 – Fee**, this Schedule is hereby amended per the Schedule attached herein.
3. With respect to **Schedule 3 – Members of the Consortium Participating in the Agreement**, this Schedule is hereby amended per the Schedule attached herein.
4. With respect to **Schedule 4 – IP Addresses/Ranges of the Members Participating in the Agreement**, this Schedule is hereby amended per the Schedule attached herein.
5. With respect to **Schedule 6 – Open Access Option**, this Schedule is hereby amended per the Schedule attached herein.

SCHEDULE 6

OPEN ACCESS MATERIAL WORKFLOWS AND SERVICES

A schedule dated March 28, 2024 to the License Agreement dated between **ELSEVIER B.V.** and **CANADIAN RESEARCH KNOWLEDGE NETWORK**.

1. Background

- 1.1. Corresponding Authors affiliated with a Member shall be referred to as “Eligible Corresponding Author(s)”. For the purposes of eligibility, the Corresponding Author is the single author who manages the publication process for an article from submission to post acceptance and corresponds with the Publisher on the same.
 - (a) Eligible Corresponding Authors who have paid their own APC for an Eligible Article accepted for publication in an Eligible Journal, as listed in Annex A to Schedule 1 during the Term will be entitled to a refund of the relevant APC.
 - (b) Eligible Corresponding Authors who have paid their own APC in full for an Eligible Article accepted for publication in an Eligible Journal, as listed in Annex B to this Schedule 3 during the Term will be entitled to a refund of the relevant discounted amount.

2. Open Access

- 2.1. Starting on January 1, 2024 and running coterminous with the OA Term, Eligible Corresponding Authors are granted the right to publish an unlimited number of open access articles in the Elsevier owned and Elsevier published core hybrid and core hybrid specialty journals set out in Annex A to Schedule 1, without having to pay an Article Publishing Charge (“APC”), subject to the terms of this Schedule 6.
- 2.2. Journal inclusions may from time to time be subject to change, including, but not limited to, changes resulting from the addition of new journal titles, journal transfers and/or changes of business model or ownership.

If a core hybrid journal or core hybrid specialty journal (excluding Cell Press and Lancet titles) that is also an Eligible Journal converts to fully gold open access during the OA Term, such journal will remain an Eligible Journal under this Agreement.

3. Additional Pricing

- 3.1. Eligible Corresponding Authors may publish in Gold Open Access Publishing Titles excluding Cell Press listed in Annex B to Schedule 1 at the discounts detailed in clause 3.1, based on the current list price set forth at <https://www.elsevier.com/books-and-journals/journal-pricing/apc-pricelist>.

2024 – 20% discount

2025 – 15% discount

2026 – 15% discount

2027 – 10% discount

4. Workflow

- 4.1. The Elsevier publishing workflow will use the acceptance date to determine the eligibility of an article under this Agreement. In order to benefit from the commercial arrangements mentioned in this Schedule 6, articles submitted by the Eligible Corresponding Author must be accepted by the relevant Eligible Journal during the Initial Term.
- 4.2. In Elsevier's journal workflow, the Eligible Corresponding Author must specify the Member that they are affiliated to and the relevant research funding source(s). Based on this data, Elsevier will provide the Eligible Corresponding Author with the relevant publishing options.
- 4.3. In the event an Eligible Corresponding Author has chosen the open access option, the journal article, if accepted for publication in an Eligible Journal, shall automatically be published under a CC-BY, CC-BY-NC, or CC-BY-NC-ND license as determined by the Eligible Corresponding Author, subject to the conditions and process set forth herein with the authors of such article retaining their copyright (other than for certain society journals).
- 4.4. The Elsevier Open Access Platform ("EOA Platform") requires the Consortium to make reasonable efforts to accurately validate that the relevant Eligible Corresponding Author is affiliated with a Member, and will provide the Consortium with the available relevant details including Eligible Corresponding Author name and e-mail address, DOI, article title, article type, journal title, research funding, submission and acceptance date of the article and the APC. The Consortium will receive a notification via email to validate an Eligible Corresponding Author's eligibility on the EOA Platform.
- 4.5. The Members are responsible for informing Eligible Corresponding Authors that they are required to identify themselves as being an Eligible Corresponding Author in Elsevier's journal workflow in order to benefit from the commercial arrangements under this Agreement.
- 4.6. The Consortium will have access to the EOA Platform in order to validate a Corresponding Author's eligibility within 15 business days after Elsevier sends an eligibility validation notification to the Consortium via the EOA Platform ("Validation Date").

5. Payment and Invoicing for APCs not covered by clause 2.1

- 5.1. The Eligible Corresponding Author is responsible for the payment of the APC.
- 5.2. In the event that the Consortium does not validate the eligibility of an author by the Validation Date, the relevant Eligible Corresponding Author must pay the APC themselves and Elsevier will send the Eligible Corresponding Author an invoice for the APC list price as at the submission date of the relevant article.
- 5.3. If the Eligible Corresponding Author chooses to pay the APC pursuant to clauses 3.1, 5.2 or 5.4, Elsevier will send the invoice to the address provided by the Corresponding Author.
- 5.4. Eligible Corresponding Authors will be invoiced for any Open Access Articles published in journals that are not included under this Agreement at the then current APCs as set out at <https://www.elsevier.com/books-and-journals/journal-pricing/apc-pricelist>.

5.5 Eligible Corresponding Authors who choose to publish an Eligible Article under the subscription model may contact Elsevier and request their article be converted to open access by January 31 of the year following publication.

6. Reporting

- 6.1. The Consortium will have access to monthly reports that include a breakout of all articles (open access and subscription based) published by Eligible Corresponding Authors in the Elsevier journals governed by this Agreement. Minimum metadata requirements are: Eligible Corresponding Author name, Eligible Corresponding Author affiliation, corresponding e-mail, funding grant IDs (if provided), date of submission, date of acceptance, journal title, ISSN, article title, article type, article APC and discount (if any), open access Y/N, DOI, and CC license.
- 6.2. Elsevier will provide annually an updated list of journals that are eligible for open access publishing as part of this Agreement.

7. Provision of Information: Subscribing Members and Open Access Schemes

- a. Publisher shall provide reasonably sufficient information to enable Eligible Corresponding Authors to benefit from its open access schemes as described in this Schedule 6.
- b. Publisher shall ensure that its publishing systems, including communications with authors, in no way obstruct the implementation of this agreement and the timely participation of all Eligible Corresponding Authors.

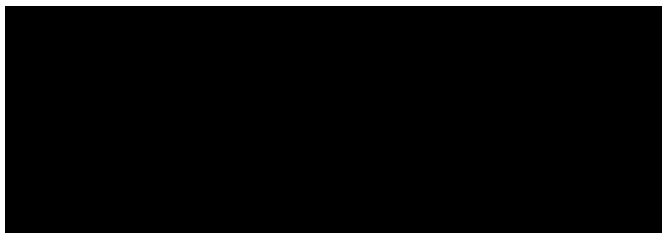

8. Additional Information

For each Open Access Article, the Publisher shall state the applicable Creative Commons Attribution 4.0 International Public License (current version available at: <https://creativecommons.org/licenses/by/4.0/>). This shall include the information on the Creative Commons licensing terms that apply to each version of the Article and making the relevant Open Access Article, together with the applicable Creative Commons licence, available on the open web without any requirement for authentication in order to obtain access or to download the Article. Each Article shall include any disclaimer or other statements required by the Publisher in compliance with its policies for release on the open web. Publisher shall make any such policies readily and openly accessible on its website, or by other reasonable means to draw them to the attention of authors submitting any Open Access Article.

Please indicate your agreement to the terms set out in this amendment by signing the two originals of this Amending Letter, returning one signed original to the CRKN office and retaining one signed original for your records.

Sincerely,

FOR THE CONSORTIUM: CANADIAN RESEARCH KNOWLEDGE NETWORK
